SOP – Grainfather Connect Control Box Screen replacement

Date: 2019-03-05
Revision Number: 1.0

Tools

Craft knife *1
Phillips screw driver *1

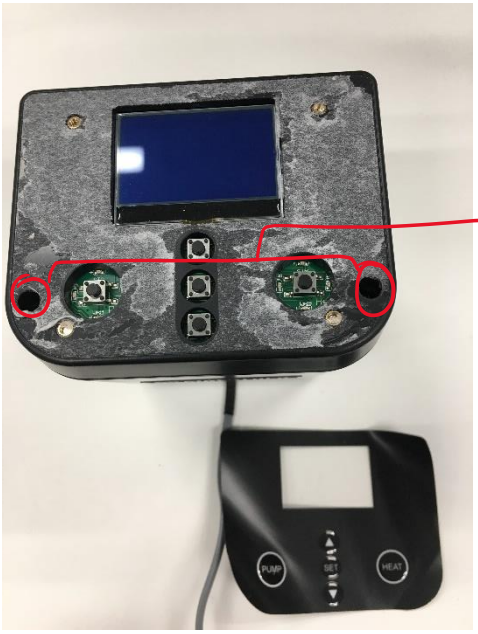

Step 1: Peel off the top panel sticker

Use a craft knife to peel a corner of the top panel sticker and use your hand to peel the top whole sticker off.

Step 2: Open the control box case

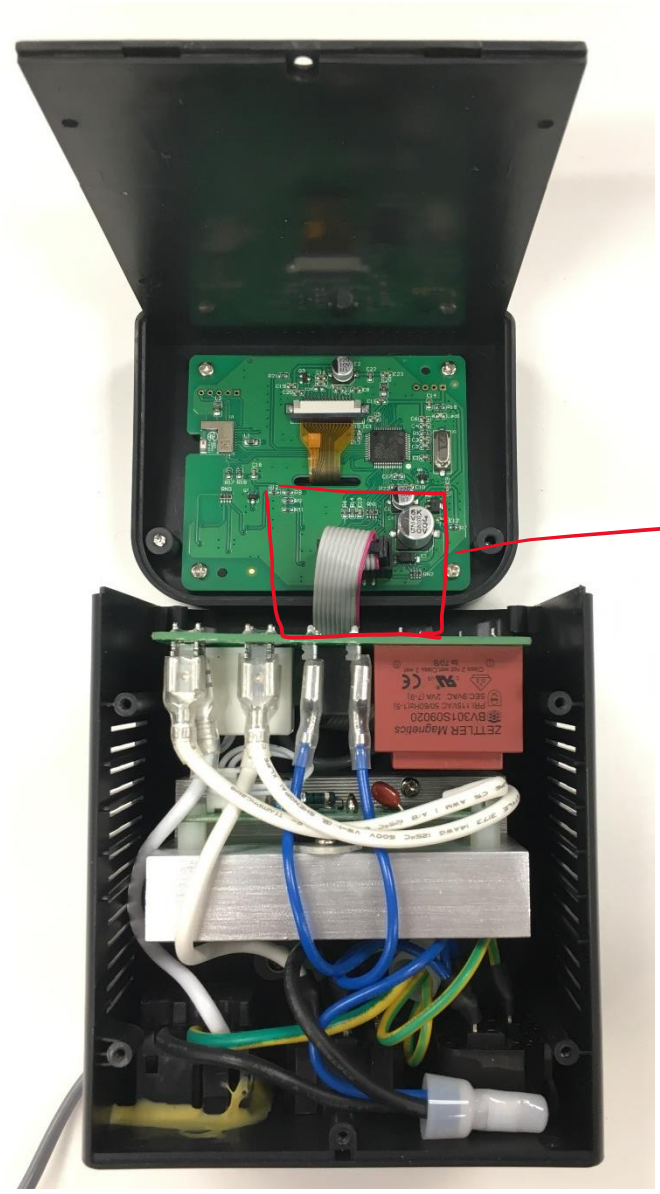

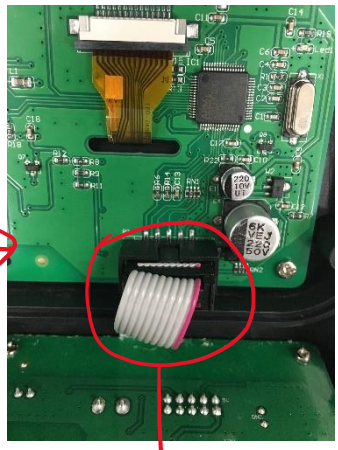

Take the two screws off using a Phillips screw driver

Take the five screws off using a Phillips screw driver

Step 3: Disconnect the screen connector and take off the screen

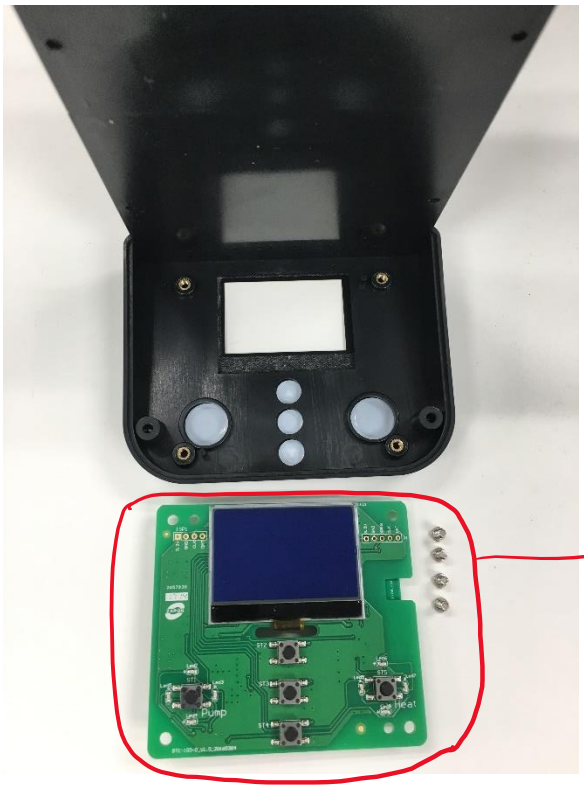

Disconnect the screen connector

Take off the four screws and get the screen module out.

Step 4: replace a new screen module

Replace the screen module and do step 3 reversely.

Step 5: Assemble the control box

Assemble the control box by doing step 2 reversely. And the final step is to attach the control box front panel sticker in place.
